PROFESSIONAL EXPERIENCE

ROBERT WOOD JOHNSON UNIVERSITY HOSPITAL

Staff Crna

May 2013- Current

As a CRNA in this level 1 institution I provide preoperative assessment, devise and enact a anesthesia care plan for a variety of cases including GYN, General surgery, OB, ORTHO, Neurology, Gastroenterology, Trauma, Gentiourinary and Vascular cases on patients ASA 1-4 E.

LUTHERAN MEDICAL CENTER

**Staff Crna
January 2013**

November 2009-

As a CRNA in this level 1 institution I provide preoperative assessment, devise and enact a anesthesia care plan for a variety of cases including GYN, General surgery, OB, ORTHO, Neurology, Gastroenterology, Trauma, Gentiourinary and Vascular cases on patients ASA 1-4 E.

CENTRA STATE MEDICAL CENTER

Staff CRNA

May 7, 2008 – Current

As a CRNA in this institution I provide preoperative assessment, devised and enacted an anesthesia care plan for a variety of cases including GYN, General surgery, OB, ORTHO, Endoscopies, and Vascular cases on patients ASA 1-4.

ST. JOSEPH MEDICAL CENTER

Staff CRNA**June 2007- March 2008**

As a CRNA in this institution I provided preoperative assessment, devised and enacted and anesthesia care plan for a variety of cases including GYN, ENT, healthy PEDS, General surgery cases on patients ASA 1-4 E, OB, ORTHO, Endoscopies, Vascular, Cardiology, Thoracic and a few Hearts.

Student Registered Nurse Anesthetist**August 2004 – May 2007**

Hospitals Associated with SUNY Downstate Medical Center Nurse Anesthesia Program

Wycoff Heights Medical Center, Kings County Hospital, The Brooklyn Hospital Center

As a SRNA I have been required to preoperatively assess patients, anticipate perioperative needs, and knowledgeably administer anesthesia for all surgeries including vascular, thoracic, abdominal, obstetric, ophthalmic, orthopedic, and pediatric cases. Patients for the above surgeries are of ASA classes I- IV E.

CONEY ISLAND HOSPITAL**Staff Nurse, Psychiatry****January 2004 - January 2005**

As a staff nurse I cared for the mentally ill. My responsibilities included but were not limited to medication administration as per doctors orders, the application of carefully developed care plans, education of patients and family members the specific illness and transition process from the inpatient community to the out patient community, assistance to ADL, and assessment of health needs and crisis intervention.

STATEN ISLAND UNIVERSITY HOSPITAL, Staten Island, New York

Staff Nurse, Coronary Care Unit**January 2003- May 2007**

I served as a nurse caring for patients with acute illnesses, including cognitive heart failure, acute myocardial infarction, drug overdose and withdrawal, respiratory failure, and disseminated intravascular coagulopathy. I promoted health and supported patients and their families in coping with illness. I am skilled in Hewlett Packard bedside monitoring and 12 lead EKG attainment. I am familiar with working with a number of respiratory ventilators.

- I was an integral and efficient part of participating in a number of quality assurance programs designed to identify and evaluate problems, manage patient census, and staff effectiveness by ensuring appropriate patient care was provided according to hospital protocol for each patient specific to his/her illness.

- I exhibited sincere motivation and competency by providing the highest quality patient care to each patient.

SAFE HARBOR HEALTH HOME CARE SERVICES, Staten Island, New York

Home Health Care Nurse**September 1997- 2003**

I provided safe and competent care to a diverse group of patients ranging from adults to children as young as 3 months of age. I have provided home care for patients with illness ranging from Cerebral Palsy, Downs Syndrome, Cleft Palate, Epilepsy, ALS, HIV infection, full blown AIDS, Respiratory Failure in need for respiratory BIPAP maintenance or respiratory maintenance on portable domestic ventilators. I am familiar with working with patients with tracheotomy's, various GI stomas, foot ulcers, sacral decubiti, degrees of blindness, and degrees of paralysis.

- I was required to care for the patient, his family, and at times his/her home. They often needed to be educated about their family members medical condition, appropriate ways to help their affected family member with activities of daily living, and how to recognize life threatening situations that require specific intervention of emergency services.
